

# REPUBLIC OF SINGAPORE

## Occupational Safety and Health Studies

The Ministry of Manpower has compiled a list of case studies on common accidents in construction, shipyards, factories and other workplaces.

The case studies are on accidents involving the following hazards:

- Poor Accessibility;
- Falls;
- Oxygen Deficiency;
- Chemical Poisoning, Improper Erection of Scaffold; and
- Excavation Works.

To find out more about these OSH case studies in Singapore, please visit the [OSHD website](#).

[Click here](#) to also learn more about the best practices for controlling workplace hazards and improvement of occupational health.
